

APPROVED TAGGING SITES In Nebraska

The purpose of Approved Tagging Sites in Nebraska is for producers in another state who do not have facilities or processes to apply tags before moving animals to a market in Nebraska. These producers may move their livestock to an Approved Tagging Site where the required official Identification will be applied by the Approved Tagging Site.

The Code of Federal Regulations (CFR) in [9 CFR 86](#) defines an Approved Tagging Site;

“Approved tagging site. A premises, authorized by APHIS, State, or Tribal animal health officials, where livestock may be officially identified on behalf of their owner or the person in possession, care, or control of the animals when they are brought to the premises.”

[9 CFR 86](#) also describes the official eartagging requirements for Approved Tagging Sites;

“(C) The cattle and bison are moved interstate directly to an approved tagging site and are officially identified before commingling with cattle and bison from other premises or identified by the use of backtags or other methods that will ensure that the identity of the animal is accurately maintained until tagging so that the official eartag can be correlated to the person responsible for shipping the animal to the approved tagging site.”

This is a list of [Approved Tagging Sites](#) in Nebraska as of January 31, 2020

These markets are allowed to accept livestock that require, but do not have the required official identification to move interstate. The Approved Tagging Site must apply official identification as described in the [Code of Federal Regulations](#). The record of application of official identification, correlated to the consignor of the animals must be submitted to the State Veterinarian of Nebraska by the Approved Tagging Site.
